

CREATING VALUE THROUGH LUXURIOUS DESIGN

CL CONUS BUILDERS, LLC

From the outside, you see a home with unquestionable craftsmanship mixed with timeless design. Inside, a splurge of wide open excitement, elegance and comfort. The right features in the right places, such as a unique flex room, extraordinary fireplaces, exceptional trim carpentry, tiled showers and more.

WAs the owner of CL Conus Builders, LLC, Casey Conus knows that handing over the keys to a completed new home does not signify the end of his commitment to the homeowner. Presenting the keys represents the continuation of a lasting relationship with each client.

Conus' dynamic approach to providing high standards of quality, craftsmanship, and customer satisfaction allows him to consistently exceed the expectations of discriminating home buyers. His obsession to customer service, from start to finish, is just a part of each custom home as it is built from scratch.

"We don't cut corners," says Casey Conus. "Our thinking process has always included ensuring that everything we do is straight forward! We have utilized the same subcontractors for many years. This consistent teamwork allows us to offer each customer higher standards...the way they want to have it done."

Casey's background includes nearly 20 years of experience in the residential and commercial construction industry, and an

educational foundation from Kansas State University where he received his bachelor's degree in construction science. He has been building custom homes since 2004...not necessarily the best time to start a home building business. His involvement in commercial building helped him survive the downturn and taught him about the quality and high set of standards that are necessary in the custom home building arena.

Other standard features of a C.L. Conus Builders, LLC custom home include upgraded tile package, granite countertops, stained cabinets, abundant landscaping, large patios, exceptional storage areas and storm shelters. Conus is currently building in a number of the area's finest communities, including Cedar Falls and Pinehurst Estates. His homes range in price from upper \$200s to over \$1 million.

"Client satisfaction is the measure of our success," explains Conus. "It's about providing clients with a project they are proud of and will enjoy for years to come."
